- Transportation: While public buses and free trolleys are available in San Juan, they can be erratic. Renting a car is often the best way to see popular attractions like Playa Dorada or the Bioluminescent Bay.

Budget-Saving Strategies: Beyond the Flight

- Hacker Fares: Consider booking two one-way tickets on different airlines instead of a traditional round-trip to save more money.
- Bundle and Save: Combining your flight with a hotel or car rental can lead to significant "package" discounts.
- Baggage Awareness: Budget airlines like Frontier and Spirit charge for carry-on bags at the gate. Verified travellers suggest following backpack rules strictly to avoid fees that can sometimes equal the price of the ticket.
